Mr. Kenny G
Inner-City Software
P.O. Box 969
Boston, MA 02118

Dear Ken:

I am writing to follow up on our discussion this morning. We liked your proposal and agree that ICS may go ahead and reproduce the publication, African-Americans in Boston: More Than 350 Years, in CD Rom format. If you are successful in producing the CD Rom we would expect ICS to make 2 copies available to the Boston Public Library for public use (this in lieu of royalty payment).

The library views this as a pilot project that has potential to make this book a very useful tool for use in schools. If the project is successfully completed we would be interested in discussing a joint venture with ICS to focus on other library publications.

I look forward to hearing from you.

Sincerely,

Liam Kelly
Associate Director
